The Interior Journal.

E. C. WALTON

SOME criticisms are the result of little and oftentimes erroneous knowledge gained from limited observation, or from reports of those who are not friendly to nor interested in the public schools.

The Danville Advocate, we regret to say, is not an advocate of advanced movements, if we are to judge from its protestations against Kentucky's most salient points of progress, her schools and school laws. There is one exception, however, and that is with the provision that the educational institutions be located at Danville. Let us give an item which few people are considering, i. e., the Institute for the State's deaf and dumb. This institution, within Danville, costs the State about \$75,000 per year, or a sum equivalent to the annual appropriation for both Normal Schools, tho' only 100 indigent children were trained there last year. We would not for one moment minimize the work of ministering to the unfortunate, but we would magnify the importance of giving to all the State's children, especially to those possessed of all their faculties, the very best that can possibly accrue to them. Sane mens in sano corpore is the highest aim, and we should not be loathe to make every provision possible in order that such persons may be more productive and useful citizens. Let our esteemed contemporary fight more for the good, and cultivate more flowers and pull fewer weeds. "Better to fight for the good than to rail at the ill." We do not approve of doing everything because our sister States do, but considering the fact that many other States, more than 40 in number are in the van, it most certainly behoves us to lift the veil from our eyes and let the brighter light shine in. The educators and legislators seeing that heroic measures were necessary, yielded to their best judgment and passed the measures so odious to the man who has not the perspective for optimistic vision. A reference to the graded school proposition of Perryville will convince one of the fallacious arguments used to try to defeat the purpose of the new law. Perryville can have a graded school and let ALL her revenue stay in her own town, which it is claimed she is sending away. The enormous (?) levy of two cents made by her fiscal court will not pauperize the inhabitants of Boyle. It is not the Normal school, nor the State University that is bankrupting the State, but let us consider what other expenses are being paid. There was appropriated for a House of Refuge for Criminal Youths, at Lexington, \$225,000. Would this sum be necessary, were Kentucky's educational position as high up the scale as it ought to be? Then there was a stupendous sum spent for military service, which failed to do good, in the futile pursuit of the noxious night rider. May we ask whether the N. R. was a product of the educated class or not? Do we yet see the need of heroic measures for more universal training?

One more item that considerably affected the treasury is our splendid State Capitol, which with its equipment is rated at a million plus. Lay not the sin of a treasury, with its bottom exposed, at the door of educational appropriations. Though said in a jocular way, there is a modicum of truth in the statement that to get the favor of our neophytes you must locate same institution in their domain, whether it be U. S. Military Academy or a State Normal School. One more point, and that in regard to the value of the Normal to the rural schools. More than 2,000 teachers, nine tenths of them in rural districts, are being instructed in their art, and these go back to our children in their home districts the better prepared to give of their replenished storehouse. We are glad to note that the head of Danville's own public school system is not blinded to the good of these Normal Schools as he is profiting by them. The object of these is to enable the teacher to do a greater amount of work and to do it satisfactorily. We would respectfully suggest that more of Dr. Hinit's wholesome words be published. Look not upon everything as pernicious which does not give to self the supreme advantage. Are the citizens of our neighboring county chafing under the onerous yoke of giving \$15,000, according to their own statement to help raise Kentucky from the bondage of illiteracy? Look upon the matter more like Lowell in his vision and work for interest of your State and thus become a part of it.

"Not what we give, but what we share For the gift without the giver, is bare, Who gives himself with his aims feeds three Himself, his hungering neighbor and Me."

What would the baby county of our judicial district be without her private schools? Would she not stand in sore need of high schools for which the new law provides? With Junction City the only school in her confines whose pupils can now enter college, she would certainly clamor for high schools. All counties are not favored with a Central University, a Caldwell College et cetera.

New duties have arisen, hence the new law, which made some of our appropriations necessary.

New occasions teach new duties; time makes ancient good uncouth; We must upward still and onward, who would keep abreast of truth, Lo before us gleam her campfires! We ourselves must pilgrims be, Launch out Mayflower, steer out boldly through the desperate winter sea,

Now attempt the Future's portal with the Past's blood rusted key.

And we regret to say that under our old system now discarded by every State in the Union except Arkansas the educational life blood was sapped from our children with a veritable blood rusted key.

The noblest tribute this paternal democracy of ours pays to itself is the wealth, and brain, and soul which it lays at the feet of the American child in its public schools. We should cast the best; "for the best is hardly good enough" for our Kentucky children. And through the teacher in our Normal Schools is a safe avenue through which this tribute may come and it is the quickest and most economical for one can give to many children. May we learn the value of the child and attain such an altruistic vision that we will not balk at an appropriation for Normal Schools or any other measure which makes for the improvement of our citizenship. Cut down some appropriations but never the school's part. It should dawn upon the people who are opposing advance measures and who call themselves "the great practical factors" that effective training in the schools, by more efficient teachers if you please will save them from need of reform and from the different Eleemosynary institutions which tax the State. "List the ominous stern whisper of the Delphic cave within.

They enslave their children's children who make compromise with sin."

These croakers are not compromising with sin so much as they are seeking to place the fault of a depleted thesaurus at the door of educational appropriations instead of some other leak in the State's funds.

ELECT U. S. SENATORS BY POPULAR VOTE.

Twenty-seven States have through their Legislatures declared in favor of an amendment to the constitution providing for the election of United States Senators by direct vote of the people. Only five States are necessary now to propose an amendment which ought to be easily obtained under the prevailing sentiment in regard to the Senate, the majority of which acts in utter disregard of the people in favor of classes. If the present Senate is weeded out, and all the Senators who had procured their seats by fraud excluded, there would hardly be a corporal's guard left. There is every reason that the Senators should be elected by the people, and none that we know of why they should not. The constitution provides that two-thirds of the States acting together can propose amendments, which, when submitted, requires the ratification of three-fourths of the States asking through their Legislatures or conventions. The Senators, as a rule, are violently opposed to the innovation, but the House, we believe, has on more than one occasion expressed itself in favor of it. The will of the people is often thwarted by the Legislatures in the selection of United Senators and in Kentucky, especially, we have to our shame and sorrow on more than one occasion seen the most flagrant disregard of party obligation and popular demand. The election of Senators by the vote of the people is coming, but it will be delayed as long as possible by the millionaires of the Senate, who can buy the Legislatures, but not the majority of the great common people.

In the nomination of candidates for municipal offices, the Louisville democrats seem to have put their best foot forward and named a ticket that will reflect credit on the party and insure election. Mr. W. O. Head, the nominee for mayor, is a good business man with a clean political record and the other nominees are all right. The complete turning down of Charlton and McNutt, bolters and traitors, shows an awakening of the political conscience and augers a better day in the State's metropolis. We hope and believe that the ticket will prove invincible.

The proprietor of the Socialist paper, Appeal to Reason, published at Girard, Kansas, was sentenced to six months in jail and fined \$1,500 for violation of the postal regulation in making a printed offer of \$1,000 to any one who would kidnap W. S. Taylor while he was a fugitive from justice. The punishment is out of all proportion to the offense. A fugitive from justice ought not to be regarded with as much consideration as a stray cur. Certainly Taylor was deserving of even less consideration.

THERE are said to be 457 Federal licenses to sell whisky held in Knoxville, which is a prohibition city. If this is true, it is another argument in favor of the passage of the bill by Congress presented by Mr. Langley to prohibit the National government from issuing liquor licenses in prohibition districts.

THE officials of Franklin county, that is the Commonwealth's attorney, county attorney, sheriff and perhaps others, are rolling in clover over their share of the \$10,000 fine imposed against the Indian Refining Company for polluting a creek, while the State gets only a small part of it. There is no good reason that a fine should go to the officers. They were not damaged and in this case their parts of the fine are out of all proportion to the services rendered. If the State is not to get but a few dollars of fine it would seem much more equitable for those who suffered damages to receive their relative amounts of a judgment assessed against those who have damaged them.

THE Winchester Sun-Sentinel advocates the election of Judge E. C. O'Rear for governor and pays him some well-deserved compliments. Judge O'Rear is a good man and a fine judge but his politics is against him. The people will be so tired of a Republican governor by the time the next election rolls around that nothing labeled Republican will go. The next governor of Kentucky will be a Democrat. Put that in your pipe and smoke it.

SECRETARY WILLSON, of the Agricultural Department, who has broken the record for length of time in a cabinet position, says it is not true that he will resign. The statement is superfluous. Nobody ever heard of a republican resigning and very few die. Fatality seems to be confined to Democrats in order to give that great non-partisan, Gov. Willson, a chance to show his partisanship in appointments.

EVEN honest old Ben Tillman has been inoculated with the views of protection. He tried to get a duty of 10c a pound on tea because there are a few raisers in his State of South Carolina, but he got left. Bailey was the only democrat to come over to him and only 16 republicans lined up with him.

WHEN the republicans took the reins of the State Government 18 months ago, there were nearly \$1,500,000 in the treasury. Now that's all gone and the statement at the close of the fiscal year, June 30, shows that there is a deficit of \$194,806.21. There is no telling what it will be at the end of the four years.

THE automobile saloon is the latest. The owner does a thriving business in prohibition territory till discovered, when he scoots to the next county, before the constable can catch him. The fruitfulness of resource shown by those who want to sell liquor would make them rich even in legitimate effort.

THE census shows that there are more than one woman for each man in the United States. Yet three men have been killed and one has suicided over a Missouri widow, whose newspaper picture shows that she is not near worth while.

AN exchange says that Speaker Cannon is against woman suffrage and if Senator Aldrich is of the same mind the question will be settled for all time. As these two workers seem to decide all legislation, this appears to be the size of it.

SENATOR ALDRICH will attempt to escape the consequences of his sins against the great common people by fleeing to Europe on the adjournment of Congress. However, he may be apprehended and returned as a fugitive from justice.

MR. BRYAN favors the corporation tax, which passed the Senate 60 to 11, but thinks it should be added to the Bailey income tax bill and that democrats should favor all plans looking to the taxation of incomes.

THAT delightful summer resort, Dripping Springs, is now open for guests with Mr. Spears Fisher and his excellent wife in charge. The writer spent Sunday at Dripping and was one of 25 or 30 who got a splendid dinner. Chickens are abundant in that section and Mrs. F. can beat the world frying them. A good garden furnishes lots of vegetables for the table while old hams and the dozen are in easy reach. If you want health, flesh and happiness go to Dripping. The stable is under the care of Mr. Sam Rothwell, who will see that your horse gets all the corn, oats and hay he can eat.

REYNOLDS.—A good wife and mother passed into the great beyond when Mrs. Cicero Reynolds breathed her last at 8:30 o'clock Friday evening. Bright's disease brought about the end. She and her husband drove to Frankfort to visit their daughter some weeks ago and on their return she took her bed and had since been ill. Deceased was Miss Nannie Flint and she was born in the Southern end of Lincoln county 61 years ago. Some 43 years ago she was married to the man who is now bowed down with grief and the union was a most happy one. She had been a consistent and consecrated member of the Baptist church since 1871. Besides the husband four children—Messrs. Ex and Edgar Reynolds and Mesdames A. P. Hunn, of this place, and A. C. LeCompte, of Frankfort—are left to mourn the loss of the kind wife and indulgent mother. May the Giver of all good and perfects gifts give them strength to bear their irreparable loss. At 4 o'clock Saturday afternoon Dr. William Shelton and Rev. J. Murray Taylor conducted funeral services at the home, after which many sorrowing friends followed the remains to their last resting place in Buffalo cemetery.

THE ladies of the Christian church of Kingsville will give an ice cream supper Saturday night, 10th, for the benefit of the church.

THERE are between 75 and 100 guests at Crab Orchard Springs and it is about the jolliest crowd you ever saw. A good orchestra has arrived for the season and dancing is enjoyed each evening. TO A WATERY GRAVE.—In memory

of our humble servant, Geo. Caldwell,

who met with a most tragic death in a

pond near Lancaster. Beneath the

deep, blue waters his soul took its flight

to a watery grave to rest in peace for-

ever. George was an honorable and a

well respected colored boy and numbered

his friends by the scores, both black

and white. He was with us for six

years, as our servant, and we knew

him well. He was perfectly moral and

temperate in his habits and always

wore a smile and had a good word for

every one. George was true and hon-

est and always found at his post of du-

ty. The good features of our humble

and noble servant can never be blotted

from our memories. We miss him. He

has passed into the far beyond to never

return again. George is resting peace-

fully and still smiles with a true soul

with his God in peace. John Lutes and

family.
